

Big Brothers Big Sisters
of Northeast Florida

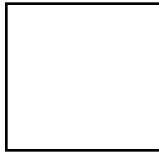

Big Brothers Big Sisters is the oldest youth mentoring organization in the US and we have been serving Northeast Florida since 1915. We recruit adult volunteers who want to make a difference in a child's life and match them with children who want and need a caring "Big" in their life. We professionally support and nurture these special relationships. In turn, a child develops a greater sense of confidence and potential as the bond with their Big matures. This vital investment of time by our volunteers helps to stop the cycle of poverty, illiteracy and crime, one child at a time.

Our Community-Based program is what we are traditionally known for – two friends spending time doing the things they both enjoy – like playing sports, going fishing or out for an ice cream – a minimum of two times a month. This is our tried and true – 100 year old brand of mentoring. Volunteers are matched with a youth between the ages of 6 – 14 according to common interests and goals.

Our Bigs In Schools program volunteers spend one hour a week during the school year with a child in elementary school. The children selected for this program have been identified by school officials as needing extra support for academic, social or behavioral reasons.

Our volunteers help build confidence and character in children so they can make positive life choices as they grow-up. Every volunteer and child match is assigned a Match Support Specialist to professionally support and assist with their progress.

Please call Erica Foster, Area Director, at (904) 261-9500 if you are interested in learning more about how you can make a difference in the life of a child in Nassau County.
